Don't have enough grip on your Benchmade GRIPtilian 551 or have to much denim in the pocket you keep your knife. Try these handles and get a grip.

I suggest printing vertically.

Require 3, 6, or 9 M2.5 heat inserts (3 to hold the sides together and an additional 3 per side you want a clip on)

I do not accept any responsibility for your use of these handles, be an adult make your own risk assessments.
