Ford Crown Victoria Police Interceptor Ticket Light Cover (Dome Light)

Fit perfect on my 08 P71. It may fit 98-11 Crown Victoria Police Interceptor, but I've seen different types of ticket lamp on junkyard cars so I'm not sure.

I printed with RED PETG 0.6mm width 0.3mm layer because it's my cheapest test print filament, but print in white if you want the genuine look. Replace the bulb with LED so that it won't produce heat. Also, print with ABS if you live in hot climate.
