Summary

Snap-on enclosure mount for a Razer Kiyo webcam.

[3D Printers](#) > [Accessories](#)

Tags: [camera](#) [mount](#) [enclosure](#) [razer](#) [enclosuremodification](#)
[kiyo](#)

Couldn't find a file for a zero-assembly mount I liked until today and that file was broken when I opened it in Tinkercad. Base of the camera has a very snug fit. The clip is just slightly smaller than the enclosure support so it fits tight. May need to resize the clip if your enclosure is different. Printed with 25% infill.

*I am using the standard Razer Kiyo. Not sure if the later revisions are the same size base.

The enclosure I have: https://www.amazon.com/gp/product/B0CP8QHJ3Z/ref=ppx_yo_dt_b_search_asin_title?ie=UTF8&psc=1
