This is a bin for forstner drillbits, in particular for this set: <https://amzn.to/4dtgmuX> but it could be used with others.

My goal when designing it was:

- As compact as possible.
- Stackable.
- Half pitch.
- Using as little material as possible (could have been better).

It's two bins, one is slightly taller than the other. The bins are 2.5 units wide, 4 units deep and 5 and 4 units tall.
