Summary

Jerry cans for water seem to not come with a key for opening the bung at the bottom. This is one that prints quickly.

Tags: [plug](#) [key](#) [spanner](#) [jerrycan](#) [bung](#)

Simple enough. It's a key that fits the opening in the bung at the bottom of a water Jerrycan. I printed in PETG for the strength.

Prints in 13 minutes on a Mk4 on the speed settings.
