Just press and blow!

Enjoy!

-- PRINTING PROBLEMS --

I know how frustrating it can be to have problems during a print, and I'm happy to receive constructive criticism or suggestions about the model, but please always calibrate the flow and if you have adhesion problems, try using the brim or a gripper. All these fails are not due to the model. All my files are tested before being published and the print profile with which I succeed is the one I publish.

Thank you very much for your understanding and happy printing to everyone!
