Tags: [earrings](#) [fashion](#) [wearable](#) [flag](#) [british](#)

Earrings in the shape of british flag. The proportion of the model and its parts is precisely according to british flag dimensions.

Print it using MMU in three colors (blue, white and red). If you don't have MMU, you can still print it in three colors by adding a pause at the appropriate layer using your slicer. First part print with blue, then change to white and finally use red color.

They are slightly heavier, if you want to lighten them, slightly scale them down in the Z-axis before slicing.

Assembly instructions:

Print four pieces, two of them mirrored. Glue together two and two parts using appropriate glue. Then add earring hooks (purchased separately).

My wife likes them a lot.

Printed with standard settings, 0.4mm nozzle, 0.2mm layer height, no supports needed.
