Summary

This is based on the Orea (v2) Negotiator with added vents for easier water drainage.

[Household](#) > [Kitchen](#)

Tags: [filter](#) [coffee](#) [filtercoffee](#) [orea](#)

This model is based on the Orea (v2) Negotiator (2 cup size) with added vents that allow for easier water drainage.

It is used to fit and shape filters for the Orea by pressing the filters into place and pouring a small amount of water into the top of the Negotiator. Remove the Negotiator before adding ground coffee into the base of the filter.

Printed standalone with no supports needed.
