Puzzle description:

This is a generalization of the 10 Cent Puzzle (<https://www.thingiverse.com/thing:5141748>): For the given tray there are three problems with three different sets of coins which will fit in the tray

- 7 x 2 Euro,
- 13 x 10 Cent or
- 15 x 2 Cent

The tray together with fifteen 2 Cent coins is a nice and inexpensive present!

If you can read German: Mehr Informationen gibt es in <https://welt-der-geduldspiele.blogspot.com/search?q=3D-Druck>

Puzzle difficulty:

The problem with 7 coins is easy. For 13 or 15 coins it is much more difficult.

Printing instructions:

The tray is easy to print. Check the size of your tray. The inside dimension should be 73.8mm. If it is smaller or very much larger then change the size by the appropriate percentage in your slicer.
