V12 Diesel Turbo Engine model

I made the model myself with the help of this course: <https://www.youtube.com/playlist?list=PLQI9vsO6sGSIasKFP-CAgnDs324Z6IW8s>

I haven't had time to complete all the elements yet. There are also a few things that are missing in the course, but e.g. gudgeon is simple to do. I'm glad if you would like to finish the rest of the parts, and you will add them as a remix on your account.
