Tags: [raspberrypi](#) [raspberrypicase](#) [nas](#) [raspberrypi5case](#)  
[raspberrypi5](#)

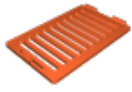

Compact Raspebbry pi 5 case compatible with top mounted NVME hat (the one i used : [Geekworm-Bouclier SSD NVMe pour Raspberry Pi 5, Tourists 2280, X1004, ne prend pas en charge le démarrage du SSD NVcloser - AliExpress 7](#))

I printed it in PETG with supports just for the latch

The Pi5 is press fitted in the case so no need for mounting screws (as many hats will use the mounting holes already)

All ports, micro SD card and power switch are usable with this case
