### Summary

Template for cutting the gravel guard on a Kia EV6 for installing a Stealth Hitch

[Hobby & Makers](#) > [Automotive](#)

Tags: [ev6](#)

If you're installing a [Stealth Hitch](#) on a Kia EV6, you'll know what this is for.

If you're doing the tow kit, you will also need to notch the gravel guard around the safety chain hooks; see [Technically Jeff's video](#) for more.

You can save time and plastic by printing this template with zero top/bottom layers. It's designed to be 3 layers of 0.3 mm each, but you could scale it to whatever thickness you like.
