I designed these LGBTQIA+ beads and Rainbow Flag pendant in Tinkercad. You can print as many as you like to make bangles and necklaces. And you can use the pendant as key-ring.

You can print these in any filament you like. You just have change the filament at the layer changes.

For the Rainbow ones from the bottom up it is:

Purple
Blue
Green

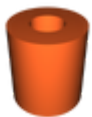

Yellow
Orange
Red

For the Trans ones from the bottom up it is:

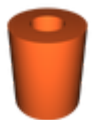

Blue
Pink
White
Pink
Blue

There are also sliced models ready to print on a Prusa Mini.
