Enhance your DJI Ronin SC2 setup with this precisely engineered STL adapter, crafted to seamlessly connect to the gimbal's NATO mount. This versatile accessory is perfect for mounting an array of cold shoe-based gear, including compact lighting solutions like Lume Cubes and Aputure Amarans, as well as microphones and other essential vlogging tools.

Designed with the Ronin S2 in mind, this adapter is also suitable for any gimbal equipped with a NATO rail.

For the best printing results, position the adapter vertically and use targeted supports on the protruding arms to ensure stability and precision.
