This is a highly detailed sculpt of the Hydralisk from StarCraft 2 HOTS. The base model was ripped from the game and the high res detail was manually resculpted by me, based on the character normal and albedo maps.

the post was matched to one of the concept images released before the game come out.

EDIT: updated the head model, it was 0.5% larger than it should have been. Fixed now.

My Printing Settings:

Printed on an Anycubic Mono X
Resin: Anycubic grey/mix Resin
Resin Volume: 500.00ml
Print time: 16 h - 2 parts
