Summary

Better top hat for Infimech TX

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

Tags: [cover](#) [tophat](#)

UPDATE: [Supports](#) for back of machine

The only real printed part is the backer for the hinges.

Parts list;

[14x14 acrylic top](#)

[PTFE passthrough](#)

[Hinges](#)

Some 20mm ish m5 bolts and hammerhead nuts

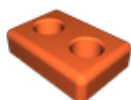

5mm heatsets

Need a [heatset press](#)?

I enlarged the 2 3mm holes at the top corners of the back panel to 5.5 mm and drilled 2 more adjacent for the hinges. Once mounted straight set the

top the way you want it and mark the holes on the acrylic. Don't press too hard when drilling to avoid cracking.
