Tags: [toy](#) [mini](#) [toys](#) [miniature](#) [kids](#) [fidget](#) [fidgettoy](#) [fun](#) [snap](#) [fidgetspinner](#) [toysforkids](#) [kidstoys](#) [hasbro](#) [snapmaker](#) [toysandgames](#) [miniking](#) [flickflier](#) [flickcopter](#) [flickfly](#) [flickopter](#)

Simply hold the Snap-Fly between your fingers like you're about to snap then... snap and fly! ✈️ If you're left handed, hold the Snap-Fly upside-down and watch it defy gravity!

The small “mouse-ears” are just for better bed adhesion and can be clipped off after printing. Or just leave them on! It will still fly!

There's no reason to not print this super quick and fun toy! You will want to make these for your friends and family!

I hope you found this print fun and please post your makes!

Printed in PLA - Silk is not recommended but possible

Layer Height: 0.2mm

Perimeters: 3

Infill: Doesn't Matter

Supports: Nah

Brim: Nah

Other Hardware: Working Phalanges

Side Note: Other users have also noticed that printing multiple of these on one bed works as a great stringing test!

Featured in the Sleepy_Crafter YouTube Short as the “**Mini King**”
