There are 3 Variants that You can Choose from.

- The original Big Candle
- The Big Candle with a Hole for LED Candles
- A Smaller Version of the Candle, with a Hole for LED Candles

The candle-base is optional, you dont need to print it, if you only want to have the Candle.

It is easy to print, and easy to paint. Just use white PLA, and give the eyes some colours! Only the Nose and some of the Wax drops needs some support material, the inner side of the Candle is hollow, so you dont need to use supports there.

Feel free to share your Prints with me, Iam always curious how your Candles will look like!
