I designed this phone stand with two positions for your tablet or phone.

It can be printed in a single colour or in two colours to bring out the side features as I have done using the Orca multi colour setting.

It is designed so no support material is required when printing.

If you like this model check out my Bag Hook with the same design.

<https://www.printables.com/model/907440-bag-hook>

Hope you like the model and as always, I would love to see pictures of your prints.
