---

A print-in-place slim wallet that offers space for 7 cards and a drawer for cash.
I looked for a long time for a wallet that had enough space for cash, but I couldn't find one so I made this one myself.

BambuStudio file available here: https://makerworld.com/en/models/485576#profileId-398724

This is the Updated Version of Slim Wallet (V3):

- Its more than 30% thinner than the previous model
- Its print in place
- has a cash drawer with enough room
- has place for up to 7 cards
- cards can be securely locked due to a lever on the side
- The drawer snaps in and holds its position
