Introducing our coolest creation: The Articulated Ice Dragon!

Dive into a world of icy adventures with our intricately designed 3D printed toy, perfect for dragon enthusiasts and lovers of all things cool. Now available in a convenient keychain version, you can take your frosty dragon companion with you wherever you go!

This file comes with two options: one with a keychain hole and one without, catering to your preferences. For optimal results, we recommend printing at a 0.2 mm layer height. However, even at a 0.4 mm layer height, the charm of our Ice Dragon remains intact, as shown by the accompanying images.

Unleash your creativity with multi-color printing possibilities and personalize your dragon by adding a splash of color to its icy blue scales,

frosty eyes, or sharp horns. The excitement doesn't end there - our dragon's articulated design adds an extra element of fun, making it a delightful companion that springs to life with every shake.

Download now and embark on a DIY keychain project that promises hours of joy and creativity!

PS: Our Ice Dragon loves to chill in the cold, frosty mountains! So bundle up and get ready for an arctic adventure!

This Dragon is part of our Articulated Dragon Collection: <https://www.printables.com/@biocraftlab/collections/1579384>
