Very nice piece of art in smooth and low poly style.

Place it to your living space or in your office as eye catcher.

Also a nice present for valentine or birthday.

Take a look to my models, there you can find a lot of other low poly models.

Would be happy to see your makes!

Would be great if you support me with a membership in my printables club or by subscribing at patreon. Thank You very much. This helps a lot to create more free models in the future.
