headphone stand · reDesk

modern minimalist headphone stand with grid patterns

the base screws into the threaded stand, the tolerances are tight, so be **mindful and patient and you'll be able to tighten it right into position**, and will have a strong lock

dimensions in mm > x:220 · **y:**90 · **z:**90

this design is the **third** of a series of 3 · the **reDesk series**, that were kindly supported by FormFutura, that provided the filament shown on the pictures

- 0.20mm layer height

- 10% cubic infill (except the base that has 25% infill for greater stability)

notes

- includes bambu studio 3mf file and STLs
- the **tolerances** for the grid inserts are **very tight**, so that no glue is needed and they are snug in place. please ensure that your filament is properly dry and your printer calibrated.
- it's very important to ensure the bed is **thoroughly clean** so that there are no adhesion issues, as it has both large flat parts, which require proper adhesion
- all photos uploaded are of the **actual printed model**, taken inside a light-box or in home studio
- **buy me a coffee**

commercial licence membership available on my patreonreDesk series:

- drawer module · reDesk
- organiser · reDesk
- headphone stand · reDesk
