I'm back with another design.

Heard you guys like masks - so I designed a full face wearable mask this time...it even has horns! This took quite a lot of printing.

The design is split into 9 main parts.

For those of you who have larger format printers I included the version where the lower portion of the face is one whole part.

If there's interest I can include the entire thing(with the horns) as a single object with only the teeth separated.

Cheers!
