This is a GoPro hero 9-12 waterproof case protective lens cover out of **TPU**. I design it to protect the GoPro 9-12 waterproof case lens from getting scratched when travelling. This was made specifically for **TPU**. Ridged materials like ASA, ABS, PETG... probably won't work. I also have a version I designed to hold a solar eclipse lens over the case (it worked but I didn't end up using it for the eclipse).
