### Summary

A giant dart tip to fit a pool noodle!

Tags: [nerf](#) [nerfmod](#)

Ever wanted to make a comedically huge nerf dart to shoot out of a comedically huge nerf blaster? Just print out some of these giant dart heads and slap them on!

These are made to fit pool noodles with 60mm outer diameter and a 22 mm inner diameter! I have mine cut to short dart proportions, so each of my pool noodle lengths are 20 cm long!

MAKE SURE to print your dart heads out of TPU! This will make them soft and squishy and less likely to hurt someone. I printed mine with 2 walls, and 5% cubic infill! Of course, have them checked by your group to see if they are ok for use!
