Summary

This is a bracket to mount the Satran PCB to a specific enclosure

[Hobby & Makers](#) > [Electronics](#)

Tags: [bracket](#) [antenna](#) [hamradio](#) [sattelite](#)

This a simple bracket to the mount the PCB from the Satran project <https://satran.danaco.se/> to this enclosure: https://www.amazon.com/dp/B08KWD8TFY?ref=ppx_yo2ov_dt_b_product_details&th=1 . This is the Zulkit 5.9" by 5.9" x 3.5" junction box. Mounting holes in the box are 3.9" (100m) from each other.

It uses standard Voron threaded inserts "M3 Threaded Insert OD5mm L4mm" to mount the PCB to the bracket.

Sized for ASA, will most likely need to adjust scale slightly for PLA or PETG.
