### Summary

Why can't I help with the cat keychains?

[Fashion](#) > [Other Fashion Accessories](#)

Tags: [cat](#) [cute](#) [hat](#) [keychain](#) [wizard](#) [kitty](#) [kitten](#)

The cats are so cute I just cannot help designing more cat keychains! I made 2 options - basic (can be black&white) and tabby cat :)

Setting: 0,2 layer height, 15% infill

Made for single colour printers :)

Colours:

- last layer = black outline
- one layer before (optional) = the colour of the hat (mine is black)
- the layer before = the colour of the cat (gold in my case)
- all other = white
