Summary

I didn't like the other ones I tried, so here's another one

[Hobby & Makers](#) > [Automotive](#)

Tags: [cap](#) [battery](#) [sae](#)

I tried some other caps out there, but didn't like them, so I drew a new one from scratch. Note that there seem to be plugs with different depths, so this will fit some but not all.

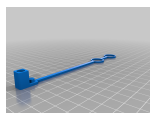

Made two versions:

rev A: 0.46in height (see image)

rev B: 0.41in height (see image)

Print with TPU 95 and your settings of choice
