Summary

Dovetail jointed holders that I made in Fusion 360. Please comment suggestions for more holders.

Tags: [penholder](#) [organization](#) [pencilholder](#) [holders](#) [dovetail](#)
[eraserholder](#)

Pen, Pencil and -miscellaneousholders. Connect them with the dovetail joints on the sides.

The Pencils' holes are $\varnothing 10\text{mm}$, which should fit most pencils.

Tolerance on the dovetails are 0.1mm on all sides.

OBS! I have not printed any of these designs because I don't have a 3D printer.
