### Summary

Organize your AeroPress and accessories

[Household](#) > [Kitchen](#)

Tags: [coffee](#) [aeropress](#) [coffeemaker](#) [aeropressstorage](#)

Simple and compact AeroPress organizer/stand.

-Designed to hold:

- Scoop
- Stirrer
- Original Funnel
- Paper filters

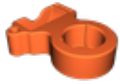

-Printed out of PETG (so it can wash with warm-hot water and soap), though PLA should be fine.

-Optional: place rubber bumpers on the bottom (e.g., 3 so that it will be level) to prevent slipping on a counter/surface.

**PLEASE NOTE:** the [funnel](#) is required to properly hold the AeroPress coffee brewer (<https://aeropress.com/products/aeropress-original-funnel>).

Alternatively, check out the [model](#) by blkhd.
