Summary

At first I didn't think this was real, but once I found out about it I thought it would be great to share! So enjoy!

This is a great model that I hope you come like and print...I really enjoyed the final look of it once I printed it, so I hope the same for you.

All the files are pretty self explanatory, I already put the orientations that way that they should be, so don't be concerned.

If you have an questions, comments, or makes. Feel free to reach out, I'm always happy to see those!

Check out some of my other great models!!!
