This is a dresser or tabletop worthy bank for the person who comes home with a handful of change everyday. It is broken into two parts to fit a print bed and to cut down on print times. the two pieces do have long print times, I used grid supports inside and out which also cut down on the print times. the included lower cap is at 98 percent the original size for a slightly looser fit but snugs up well when tightened. It will scale, but due to the threads only one or two percent either way. also print the upper threaded part with the coin slot upside down. Enjoy!

Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Supports:

Yes

Resolution:

0.2

Infill:

50%

Filament: Inland PLA gray

Notes:

I went with four vertical shells to increase strength

Post-Printing =====

Glue

simply glue the top and bottom halves together and start saving! I added a gluing surface to the top half.

Category: Office
