Summary

This adapter lets you use shop vac accessories with a Shark vacuum.

This adapter is designed for a Shark NV752 Rotator Powered Lift Away True Pet Vacuum. I wanted to use the accessories for my Ridgid brand shop vac ("2.5 inch hose" per their marketing).

The wall thickness is 4mm.

The outer diameter of the larger end is 57mm, and fits inside of the Ridgid shop vac hoses/accessories (it is slightly undersized, I added 1 wrap of duct tape to get the fit to be just snug enough).

The outer diameter of the smaller end is 39mm, and fits inside of the "wand" of the Shark vacuum.

Printed just fine on a Prusa Mini with PLA.

I probably won't make any updates unless requested, I just made this for myself since I couldn't find another solution. It works well enough that I decided to share.
