Summary

Dual SSD Drive Tray for HP Invictus 15L

[Gadgets](#) > [Computers](#)

Dual SSD/2.5" drive for HP Invictus 15L

Height of original was too high to fit in the drive cage so I recreated it in F360

There are 2 versions. I have a cut-out for a bump in the base of the cage, the other does not. I printed and use the one without the cutout, wrks fine but can only fasten it to the cge via 3 rather than 4 screws

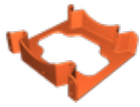

This remix is based on

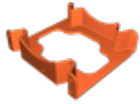

HDD to Dual SSD holder adapter

by A3D Printing Farm

Model files

dual-ssd-tray.stl

dual-ssd-tray-with-cutout.stl

☐ This is to accomodate the 'lump' in the drive cage I have
