Ready and Painted for Multicolor printers !!!
Print in Place no Supports Required

Pixel Mini Bot / Print in Place // La Calavera licensed toy

Pixel Mini Bot the name and distinctive likenesses are trademarks of La Calavera.

It works on Filament & Resin. / Can be scaled up and down

Don't add extra supports to the files, they are not needed and it will cause troubles.

This Design is protected by copyright Law. When you download, you do not have the right to sell any digital file or 3D printed toy without any consent, you can obtain commercial licence to sell Physical Prints From The below link

Support Me: www.patreon.com/la_calavera_3dprint

Subscribing in Patreon and you'll get permission to use the Pictures and Music we share in your Social Media and Etsy Stores

Along with the STL files you'll find the 3MF files for multicolor, the toy is already painted and ready to be printed

You can play a lot with the settings, the files have a very good grasp on the bed, it can be printed at high speeds, we tested it at 70 mm/s but printers like Bambu will be able to print it faster

Feel free to share your makes on this page, i would love to see them or you can tag me on my socials here :
