This practical desk organizer helps keep all your everyday essentials(like your wallet, keys, and even your AirPods) in one convenient place.

It can be attached either with double-sided tape or screws.

This new design has a larger compartment for the wallet so that even large ones will fit :).

Even tho it is a little bigger than the first version; it is still printable on the a1 mini :O

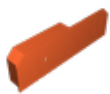

The Shelf part now has an indentation that perfectly fits the AirPods Pro case.

Let me know if you have any other ideas or improvements.

happy printing
