Summary

Cover a hole in plasterboard where a network cable comes out with RJ45 connector inside so the cable does not get lost

[Household](#) > [Home Decor](#)

Used to cover a hole in plasterboard where a network cable comes out. It has an RJ45 connector inside so the cable does not get lost. Made for use with a 40mm hole saw.

Model for RJ45 clip taken from here <https://www.printables.com/model/130690-rj45-cover>
