Additional Signs from DIN 4844-2 & NEN 3011 that are not (yet?) in ISO 7010

I have only created new signs if they do not already exist in my ISO 7010 Sign collections or if they look significantly different.

These Signs were all created without frame to keep it consistent to my other uploads, even if they have a small frame according to the standard.

All my Signs can be found in the following Collections:

- [ISO 7010 - Complete Sign Collection Kollektion von Drunken Monkey | Printables.com](#)

- [Additional \(local\) Sign Collection Kollektion von Drunken Monkey | Printables.com](#)

Content:

Safe Condition Signs:

- D-E008 - Doctor
- D-E019 - Emergency Exit
- NEN 3011 – Collection of emergency response resources
