updated 8. 12. 2021 | published 7. 12. 2021

### Summary

Didn't like to bend the flat cables into the extrusion, so later I prepared these clips.

I used Tinkercad to edit this clip, starting from a 3030 clip designed by [ian99rt](https://www.thingiverse.com/thing:2426753) (here: <https://www.thingiverse.com/thing:2426753>). It clips below the extrusion so it doesn't interfere with the Y-axis movement, and have a thin lip for ease of installation/adjusting.
