### Summary

Rotatable and fully retractable PDC which go all the way into the given frame

[Toys & Games](#) > [Action Figures & Statues](#)

Tags: [raptor](#) [orion](#) [expanse](#) [mcrn](#) [rocinante](#) [frigate](#)  
[morrigan](#)

I used a few parts from other PDCs from printables and changed something in tinkercad. the pdc towers come in 2 sizes, the small one for the orion class and the bigger ones for orion, roci and i guess for raptor class.

Update: Martin inspired me to just change the base of his PDC to get a better looking PDC, just print the "PDC\_all\_ships\_new" File.
