### Summary

This Wallholder will hold your COR 50 Reactor.

[Household](#) > [Pets](#)

Tags: [aquarium](#) [fish](#) [co2](#) [aquariums](#) [fishtank](#) [reactor](#)

i made this because the original mount used one screw only, and the force was too great - everytime i used it the plywood walls of my stand got damaged.

The screw holes are around 4.2mm wide.
