updated 20. 6. 2024 | published 20. 6. 2024

### Summary

An adapter for JBL Quantum microphone for a lamp post that acts as a microphone boom.

[Gadgets](#) > [Audio](#)

Tags: [microphone](#) [quantum](#) [jbl](#) [micboom](#)

The boom is from a table lamp that seems to be common around here.

1. Print the two halves
2. Remove the lamp and all electrical wiring from the lamp boom
3. Put those around the connector on the lamp boom
4. Use a M4 nut and a M4 x 18mm bolt to tighten the adapter to the lamp boom
5. Screw the microphone on the top
