Summary

Lens hood/filter adapter with aperture adjuster for Leica lenses with aperture adjuster around front element

[Gadgets](#) > [Photo & Video](#)

Tags: [photography](#) [lenshood](#) [leica](#) [lensadapter](#)

Push on lens hood/filter adapter for Leica lenses such as the Elmar 50mm F/3.5 and others that have the aperture adjuster around the front element. There are dots on the outer diameter to mark aperture positions, install with the aperture set to F/22 or F/3.5 and the tab against the edge of the cutout.

The STL fits a 49mm filter threaded directly into the plastic, the SCAD file is included, and other filter sizes can be accommodated by changing the "filter_od" variable.

The hood partially blocks the viewfinder so an accessory viewfinder is recommended.
