Key hanger with shelf

This key hanger has been designed from scratch, looking to cover the daily need to be able to place one, more key rings at the entrance of the house, these hangers have been designed millimetrically so that if at some point the seven hangers are not enough, you can add more key rings per hanger, in an elegant and decorative way. Besides the entrance of my house has no furniture, so I needed a small shelf to leave; sunglasses, cell phone, bags for the dog, etc..

(to give it a little touch of distinction, you can paint the letters as I have done in some color to highlight them).

And this has been the result, I hope you enjoy it!
