Candle Holders Set - a classic trio of turned-style candle stands sized for tealight, taper, and small pillar candles.

Native heights are 11 cm, 15 cm, and 16 cm. Clean, manifold models, pre-oriented for FDM.

Most printers handle these with no supports; add light supports under the plate lip if your setup prefers it.

Paint to taste for tabletop decor, dioramas, or a quick gothic centerpiece.

For safety, use LED candles or keep real flames well clear of printed plastic.

IMPORTANT! Any plastic will melt or burn if you leave the candle unattended long enough for the candle to burn out. Protect the candle holder with a piece of foil wrapped around the bottom of your candle to avoid burning your house.

The creator will not accept responsibility for any direct, indirect, incidental, special, exemplary, or consequential damages (including, but not limited to, procurement of substitute goods or services; loss of use, data, or profits; or business interruption) suffered by any person related to any use of the Digital Model or any its part.

Dungeon Master's Screen Version 2.0 is coming soon!

Next DM Screen from Gracewindale is coming soon! We've listened to you and will do our best to make sure your feedback is implemented: mobility, aesthetics, usability!
