Summary

TPU inserts to add an accent color to your Tacoma.

[Hobby & Makers](#) > [Automotive](#)

Tags: [door](#) [car](#) [tpu](#) [toyota](#) [tacoma](#) [toyotatacoma](#)

These are made to be pressed into the gap on the inside door handle.

Print this in TPU! If you print it in any hard filament it likely will not fit! It's designed to be a tight fit that the TPU can squeeze into. Occasionally they may start to pop out over time, so keep that in mind.

Filament:

Overture TPU 95A

Layer Height:

.2mm

Infil:

Solid
