Hey guys, since the 4th of July is coming up, having little flags on RC cars seemed like a fun thing to do, so I created a mount for the ARRMA Mojave 4S. After recently getting the ARRMA Mojave GROM, I decided to make a flag mount that would work for it as well. So here it is!

Feel free to print the model in any orientation you like, although I do recommend printing this as shown in the image above. It is meant to be placed on the middle of the back bumper on the car. Happy printing, and happy driving!
