Summary

I remixed this water filter wrench so I could remove and install my Pentair IC40 salt cell.

Tags: [wrench](#) [pool](#) [chlorine](#) [pentair](#) [intellichlor](#)

This is used to remove or install the Pentair IntelliChlor chlorine generator. There was nothing available and I had overtightened the previous collar using my oil filter pliers. Perfect fit and allows for proper tork without scuffing up the collar. I printed this in Tough PLA at 80% infill.

This remix is based on

Water filter wrench 10"
