Introducing the Tall Vortex Tube - Desk toy and office accessory

Bambu Lab users - <https://makerworld.com/en/@Trickstyle>

Standing at 12cm tall this beautiful desk toy will have everyone fidgeting.

Install the added caps with a “Click” noise to confirm, these can be popped off later easily!

This model is NOT compatible with the other Screw Vortexes I have released for the Mini Models. I can make some different screw threads if this model becomes popular otherwise the balls is it for now

Do not Scale this model - Tolerances have been built specifically for this size of model - I will be releasing the larger version at some point soon

I hope you enjoy this model.

Consider giving me a **boost** if this model was useful!

Ways to support me & access to commercial licences:

<https://www.patreon.com/Eternity3D> - Free membership available for some .stl access, paid membership needed to resell prints of my designs.
